Their Love Letters

By EDITH V. ROSS

It is quite remarkable that so vols tile a sensation as love can settle into so humdrum an affair as married life. Nevertheless the two conditions are

very different, and there is no doubt that love before marriage is like the wind playing upon the strings of a harp, now bringing forth low, sweet DILLINGHAM HAS sounds and now the wildest strains. It is not only the greatness of these changes, but the suddenness. Take the case of Gus Pickering and Sara Travers' for instance. They met at a barn dance and flew at each other as it But Has Received Many Letdrawn together by a pair of thousand volt magnets. Two days later they did not speak to each other when they met. In three more days they were engaged. Then they, living in different towns, began that voluminous letter writing which never has been and never can be equaled by any other correspondents than lovers. The letters that passed between them varied daily from one to five, the one representing ordinary

He thought of a great many ways to get his letters into his own possession, but there was a weak spot in all of them. Finally it occurred to Gus that be might take Sara's letters to her and wasn't it, that he had not thought of this before? He wrote the girl be had wildly loved that he would take her letters to her and secure his own, after which there would be a parting between them that would last forever.

The spring was coming on, and the leaves were beginning to bud. The crocuses had already come up. The birds had begun to build their nests. These two haters who had been lovers agreed to meet in a wood back of the girl's home. Each appeared, bringing a huge bundle of letters. They met on

Not finding them interesting, they played football with the packages for awhile, then left them on the ground. That night a great storm sprang up, and the love letters of Gus Pickering and Sara Travers were scattered all over the county. For months kind friends were returning them from every quarter. and every return was not only mortifying, but heartrending.

It has been absolutely shown that rest, fresh air and good food do help many persons suffering from Tuberculosis. But it must be admitted that the disease is seldom more than "arrested." Something more is needed.

Eckman's Alterative is a medicine made for the treatment of Tuberculosis. It has conquered this disease again and again often these benefits have been effected where the surroundings were not idealyst recoveries resulted. Now we argue that Eckman's Alterative should be used in every case of Tuberculosis, in addition to good, nourishing food and fresh air, which we all need. A remarkable case follows:

"Gentlemen: Through Eckman's Alterative I have been saved from a premature grave. On December 14, 1904, I was taken with Typhoid Pneumonia. My lungs became very much affected; my sputum was examined and Tuberculosis Bacilii were found. On February 21, 1965, I was savised to go to Fort Worth, Texas, while there an abscess in my right lung broke and discharged. I grew worse, and became very much emaciated. My physician informed me that I must go to Colorado as quickly as pessible. I left Texas, June 21 and arrived in Canon City, June 3 very feeble. After being there two weeks, my physician informed me that my case was bopeless. Three weeks later I returned home, weighing there two weeks my physician informed me that my case was bopeless. ANNIE MORGAN ON MINIMUM WAGE

"Perfect Nonsense," Declares J. P. Morgan's Daughter, As Solution of Immorality.

New York, June 4,-"It is perfect nonsense to think that a working girl who is immoral on a salary of \$6 a week. will lead a virtuous life on \$8 a week." was the way in which Miss Anne Morcan, daughter of the late J. P. Morgan, yesterday answered the question of whether she believes in a minimum wage for women.

Miss Morgan was explaining how easy it was for every girl to put by a few pennies a week and have enough for some bit of a vacation in the summer. "I think wages have nothing to do the question of morality." continned Miss Morgan, "and the girls themselves were the first to resent the suggestion that the minimum wage is the remedy for minimum morals. How Their Story Ended

By LOUISE B. CUMMINGS

They were walking in a garden. The roses were in full bloom; consequently

you must know that it was June. "I wish you would tell me how you write these stories," she remarked. "I can't understand how you take per sons, make them talk and do things just as if they were real."

"Anybody who tries can do it," he "I couldn't write a line."

"Suppose you try. I'll help you Take for your characters persons you know."

"Well, there's Ferguson." "And you." "I don't think you can make anything interesting of me, but you are welcome to use me. That's two men.

"Who, for instance?"

Now you need either one or two girls. Since this is your first story, perhaps you had better confine yourself to a few characters. One girl will do. She shall be the heroine."

"Is it to be a love story?" "Well, yes; a kind of love story." "What girl of my acquaintance shall

I take for the heroine?" "Yourself. You'll do very well." "Oh, dear: I'm afraid I shall not behave myself heroically."

"The heroine of a story is not always heroic. The words hero and heroine were used for the leading male and female characters in stories when it was the fashion to make them possess every human heroic trait. Then as a counterpart there was always a villain-man or woman-whose evil acts noble persons were obliged to counteract. Our story will be a plain, uneventful love tale."

"Who is the heroine, as you call her, in love with?" "Your question brings us to an ele

ment that is always of assistance in holding the interest of a story-curiosity. It may be well in this case to conceal her feelings from the reader for a time." "She has only two men to choose

"There may be another who will enter at the climax-some one not men tioned till then-who will be a sur "Is he to be a surprise to you and

from, you and Mr. Ferguson."

Mr. Ferguson?"

"He'll be a surprise to me, for the indications are in favor of Ferguson." "What do you mean by that?" "It is difficult of explanation, but I will try. When an author sets out to tell a story it is like one moving toward an object so distant that he can't make it out. It may turn out to be a

house or a windmill or"-"An elephant." "Just so. Now, the story in the author's mind is like that object. He may suppose it to be a windmill, and as he nears it, despite his preconceived

notion, it may turn out to be"-"An elephant." "I see you understand my demonstra

tion perfectly." "Partly. Do you refer to an ordinary elephant or a white one?" "Why do you ask that?"

"I was thinking that if the beroine

took either of the characters she might get"-"Something she didn't want?"

There was no reply to this. He did not seem pleased with the way the story was getting on. In fact, he looked very glum. She plucked a rose that leaned toward her from "its lovely companions" and handed it to him Quite likely this was to encourage him to go on with the construction of the

story. It brought about the change in him she destred.

"If you're going to introduce a third man to come in and take the heroine at the end of the story I suppose we'd better settle on who he is to be." "What need of that?" she asked.

"Well, you see, in story making you must suggest faintly what you're going to do. The man should be in the story, but you don't need to give away the fact that he's to win the heroine in the end.'

"But if we name some one we'll know that he's a dark horse, and it will spoil the story for us."

"It wouldn't spoil it for me." "In other words, you take no interest in whom the heroine marries." There was a slight tinge of reproach

in her tone as she said this. "Not at all," he hastened to reply. "When I read other persons' stories, not my own. I always look at the end

to see how it all turns out." "But this is your story, isn't it?"

"And yours?" "The lady, I believe, has the privilege "Not when they are collaborating.

They must work together. They would never get a story made in the world in that way." "Then I'm afraid it will not be

made."

"You might at least tell me who is the dark horse." "If you go on with your story you will find out all you wish to know.

"Where does your part come in?" "Oh, my part! I'll write the close." They had reached a canopy formed by the drooping branches of trees, where they could not be seen or interrunted. There he told her his part of the story. She listened to it attentively and even permitted him to put an arm about her waist, to draw her to him

and kiss her lips. "Now, tell me how the story ends," be said. "Happily."
